

ANIRUDH SINGH

Full Stack Developer · MERN Stack · Java

anirajput20022@gmail.com | +91 8398993306 | github.com/anirudh2504 | linkedin.com/in/anirudh-singh-25apr2002

PROFESSIONAL SUMMARY

Full Stack Developer with hands-on experience delivering scalable, production-grade web applications using the MERN stack (MongoDB, Express.js, React.js, Node.js) and Java. Strong in component-driven frontend development, RESTful API design, database modelling and third-party integrations such as Shopify and AWS Lambda serverless functions. Leverage AI-assisted development tools including Claude and GitHub Copilot to accelerate delivery, improve code quality and automate repetitive tasks. Agile team player with strong debugging, problem-solving and continuous-learning mindset.

TECHNICAL SKILLS

Languages	Java, JavaScript (ES6+), HTML5, CSS3, SQL
Frontend	React.js, React Hooks, Responsive Design, Component Architecture, State Management
Backend	Node.js, Express.js, RESTful APIs, GraphQL (Shopify), Serverless Functions, Authentication
Databases	MongoDB, MySQL, Mongoose, Schema Design, Query Optimization
Cloud & Integrations	AWS Lambda, Serverless Architecture, Shopify Integration, Vercel Deployment
AI & Productivity	Claude (Anthropic), Claude Code, GitHub Copilot, ChatGPT, AI-assisted Development
Tools & Practices	Git, GitHub, Postman, VS Code, npm, Agile/Scrum, Code Reviews, Debugging

WORK EXPERIENCE

Full Stack Developer

07/2025 – Present

Affluence Digital Solutions

- Develop and maintain scalable full-stack features for the Ribbon B2B e-commerce platform using React.js, Node.js, Express.js and MongoDB with a modular, reusable architecture.
- Implemented Shopify integration for automated product imports using the Shopify GraphQL API.
- Built AWS Lambda serverless functions for user synchronisation and scheduled data-cleanup workflows.
- Designed and consumed RESTful APIs, handling end-to-end feature delivery across frontend and backend.
- Use Claude and AI-assisted tooling for code generation, refactoring, test scaffolding and documentation.
- Collaborate in an Agile/Scrum team using Git and GitHub for version control, pull requests and code reviews.

PROJECTS

Ribbon E-Commerce Platform *Company Project*

meetribbon.com

React.js · Node.js · Express.js · MongoDB · REST APIs · AWS Lambda · Shopify GraphQL

- Engineered responsive, high-performance user-facing modules for a B2B wholesale trade-show commerce platform.
- Designed a reusable React component library to improve maintainability and reduce code duplication.
- Implemented REST API integrations for real-time order, product and brand data handling.
- Delivered Shopify product-import integration and AWS Lambda automation for user-sync and data cleanup.

RSYC-N – Community Club Web App *Personal Project*

rsyc-n.vercel.app

React.js · Node.js · Express.js · MongoDB · REST APIs · Vercel

- Built a bilingual (Hindi/English) club web app with Members, Events, Club Fund and Join-request modules on Vercel.
- Developed secure admin sign-in and REST APIs for members, monthly contributions and transparent fund tracking.
- Designed a responsive, accessible UI with reusable components and a sidebar-based navigation layout.

Airline Management System *Personal Project*

Java · MySQL · JDBC

- Developed a Java desktop application with MySQL integration for managing flight bookings and passenger data.
- Optimised SQL queries and backend logic to improve performance and reliability.

EDUCATION

B.Tech – Computer Science and Engineering

2025

Guru Jambheshwar University of Science and Technology, Hisar · GPA 6.4

Class XII (CBSE)

07/2020

Montessori Convent Sr. Sec. School, Satnali · 82%

CERTIFICATIONS

- Full Stack Web Development Training – Acmegrade & Mood Indigo, IIT Bombay (Jul 2024 – Aug 2024)
- Employability Skills Training – Rubicon (Life Skills Program)
